

SUPPLYING HIGH QUALITY PRODUCTS SINCE 1986

fibre
systems

raising the standard in showers
since 1986

Fibre Systems is 100% New Zealand owned and operated. The people in our team are just like you. We're Kiwis that build new houses and renovate old ones, and we know what we're looking for when it comes to showers.

That's why Fibre Systems has the largest range of shapes, sizes and door options of any single supplier in New Zealand.

We've been around for over 35 years, and plan on being around for a lot longer. That's why customer satisfaction is at the top of our priorities when it comes to our products and after sales support.

Here's a few things we do a little differently to provide the best product and best support to you...

7-STAR QUALITY IN EVERY PRODUCT

- ★ **Dual Carriage Metal Top and Bottom Rollers**
Smooth open and close action, easy and precise adjustments on top roller, releasable for easy cleaning.
- ★ **Safety - Stellar Doors Feature Quality Safety Glass**
Manufactured under licence compliant to NZ AS/NZ S2208 Safety Standards. 
- ★ **All Walls Are 2mm Durosan® Premium Acrylic**
One piece quality sanitaryware acrylic walls. Manufactured in Europe to En263 and En13559 standards, approved for NZ conditions. Tested and approved by Sika NZ www.sika.co.nz Folded and moulded in New Zealand.
- ★ **Easy to Clean**
Our Showers all feature removable easy to clean seals. Invisible silicone joints between frames and glass, and no internal silicone joints to provide years of mould free easy to clean durability.
- ★ **All Our Trays Have a 40mm High Upstand**
For maximum water protection.
- ★ **All Trays Are Solid Acrylic Construction**
Solid acrylic is robust. Additionally it can be professionally repaired and polished meaning the tray will look as good as new for longer.
- ★ **Designed to be Installed in NZ homes**
Stellar Showers are designed to be easy to install. All models have built in adjustability to aid installation into renovations and older homes.

YEARS OF LEAK-FREE SHOWERING, GUARANTEED!

All bathroomware products supplied by Fibre Systems carry our Quality Assurance and Product Warranty.

We use the highest quality materials available and manufacture these in accordance with New Zealand specifications and requirements to ensure that all products are fit for the intended purpose for which they are designed. Our customers' peace of mind is of paramount importance to us.

Warranty Periods

Baths	10 years
Showers	10 years
Shower Screens and Doors	10 years
Black-coated Frames and Components	5 years
Aquaknight Easy Clean Wastes	7 years
Accessories	2 years

Warranty Exclusions

- The product must be installed according to the instructions supplied.
- The water supply temperature applied to the product must not exceed 55 degrees Celsius.
- All cleaning and cleaning products must be in accordance with our cleaning instructions and guidance.
- Commercial applications are restricted to a 2 year warranty on all products.

THE DIFFERENCE BETWEEN US AND THE REST IS...

Simple really, we treat our customers the same as we like to be treated.

It sounds like a cliché but it's our ethos. We don't have call centres which don't call you back, or phone numbers which leave you on hold for hours. We have a team of staff who have worked with us for a long time. Everyone in our team knows our product. Additionally our Sales team are our technical team. Each member is trained to install products and diagnose issues, so there's always someone at the end of the phone or who can visit your site and see what's going on.

We don't like fine print. Our warranty stands whether you have installed the product or a professional has. As long as it has been installed and maintained in accordance with our installation instructions and cleaning guide, then it's covered.

We don't like issues. We design our products to be installed easily and to be adjustable, as we know from our own experience, not every wall is perfectly straight, and not everybody has a PhD in Astro Physics!

We back our product. We do not run away from issues, and if an issue is the result of poor or incorrect installation we will work with the installer to advise how to put it right. We also provide a full spare parts inventory at affordable prices.

SOMETIMES HAVING THE LARGEST RANGE OF PRODUCTS IS STILL NOT ENOUGH FOR EVERY BATHROOM. THATS WHY ALL OUR SHOWER COMPONENTS ARE DESIGNED TO SUIT VARYING INSTALLATIONS.

TILED WALL AND FLOOR INSTALLATION

All of our shower doors can be installed onto tiled floor and walls. This removes the need for special custom glass doors which:

- Saves time and labour
- Reduces risk or costly errors
- Provides a fully watertight solution
- Have a full spare parts backing

BEFORE YOU INSTALL YOUR SHOWER, THERE ARE SOME IMPORTANT POINTS YOU NEED TO REMEMBER

- When tiling shower walls and floors, you should always consult with your local Council as you will almost certainly need a consent
- You **MUST** have a fully certified membrane installed by a certified installer
- The shower fall or hob must be made to the specification of the door set (please refer to our spec sheets for this detail)
- Work alongside your Plumber and Tiler to plan what style of waste and its location
- Wall channels must be fitted to the walls **prior** to tiling
- How will you ventilate the shower? Most tiled showers incorporate frameless doors which do not suit Shower Dome installations

Black Framed
Carina Pivot Door
onto hob-less
tiled floor and
wall.

Pictured here - Silva Frameless Pivot Door
900x900 onto small hob, tiled floor and walls.
Refer to page 9 for details

FEATURES

- A fully watertight enclosure
- Available in 1830mm, 1900mm, 1950mm and 2000mm door heights (not all models available in all heights)
- Minimalistic modern style
- Available in Black, Silva or White (not all models available in all colours)
- 6mm OR 8mm Safety Glass
- Removable drip strip and seals
- Minimalist wall and floor extrusions allows adjustment to wall and floor
- High quality stainless/alloy fittings and hardware

TILED WALL WITH ACRYLIC TRAY INSTALLATION

All our shower trays are designed with a 40mm high upstand which provides a watertight sealing perimeter for tiled walls. It also means an easy clean and robust floor with preformed drainage fall, and a simple Easyclean Waste can be installed.

To complete the look, our doors can be installed onto the tray and tiled wall.

- Saves time and labour
- Reduces risk or costly errors
- Provides a fully watertight solution
- Easy to clean robust flooring system which includes an Easyclean waste

BEFORE YOU INSTALL YOUR SHOWER, THERE ARE SOME IMPORTANT POINTS YOU NEED TO REMEMBER

- When tiling shower walls and floors, you should always consult with your local Council as you will almost certainly need a consent
- You **MUST** have a fully certified membrane installed by a certified installer
- Wall channels must be fitted to the walls **prior** to tiling
- How will you ventilate the shower? Most tiled showers incorporate frameless doors which do not suit Shower Dome installations
